System Status

Blackboard Learn is no longer available.

As of 6:00 PM on December 31, 2019, production use of the Georgetown University Blackboard Learning Management System has ended.

In addition to storing complete archives of all Blackboard courses, we have migrated Blackboard courses between Summer 2014 and Summer 2019 into Canvas. These migrated courses should have all course material, but do not have student enrollments, student work, student grades, or collaborations and discussions.

You can access your old Blackboard courses that have been migrated into Canvas by going to Courses > All Courses in the global navigation menu in Canvas (see under "Past Enrollments" section).
